A well-rounded Frontend Software Engineer with over **five years** of professional experience in designing and developing scalable, maintainable, and high-performance web applications. I specialize in **Angular**, **React**, and **TypeScript**, with a strong focus on clean architecture, reusable components, and user-centric design. I have hands-on experience across all phases of the **software development life cycle** (SDLC), from initial architecture and implementation to testing, deployment, **performance optimization**, and production support. Excellent communicator and collaborative team member, dedicated to delivering impactful technical solutions.
